

Where We Cruise

in the Tongass National Forest

For over 45 years, The Boat Company has conducted conservation tours of Southeast Alaska's temperate rainforest: The Inside Passage. One-week trips run from Saturday to Saturday and either begin in Sitka and end in Juneau, or begin in Juneau and end in Sitka (depending on your departure date and ship).

Forget the rigid schedules of a typical cruise. At The Boat Company, no two itineraries are ever the same. While your departure and arrival dates are set, every moment in between is thoughtfully designed for true immersion. Each day our crew will evaluate guest preferences and weather to ensure a truly once in a lifetime experience.
